

Energies for Local Administration
to Renovate Governance in Europe

ENLARGE GAMEBOOK IS READY:
START YOUR ADVENTURE IN COLLABORATIVE GOVERNANCE!

The project **ENLARGE** is approaching to its end and the gamebook on collaborative processes is now available online.

The Gamebook has been built based on a preliminary literature review, 31 real cases of collaborative practices, and the findings of a deliberative event with over 70 participants from all over Europe. The story is about a local government that is attempting to formulate and implement an energy consumption reduction plan. The plan involves the location and construction of a new wind farm, and the implementation of a series of interventions to improve energy efficiency in public and private buildings.
